

Immersive MathFinder Experiences across Dallas:

Families are invited to participate in a guided
MathFinder AR App Experience on

Saturday, May 10, 2025

Math is all around us - a lot of times in the most unexpected places! During the immersive MathFinder experiences across Dallas, families will have fun exploring varied places, meeting other explorers, asking their own questions, and finding personalized math connections to what they observe. They will use a brand-new, educational expert-created app that SMU and talkSTEM are developing in partnership with an incredible array of partner sites across Dallas, thanks to support by the National Science Foundation. The app technology is suitable for a wide range of ages.

Explorers will provide feedback on this new technology that is under development. They will be guided by an instructor.

Open to all families with children ages 7 - 18

Spots are limited - Sign up using the form below ASAP

Where?

Choose from one of our MathFinder Partner Sites:

- Dallas Arboretum
- Dallas Museum of Art
